Vinyl Decal Application Instructions

Your decal consists of 3 layers

Top layer
Clear transfer tape

Middle layer
Decal

Bottom layer
Paper backing

<<<<<<<<<<< >>>>>>>>>>>

Helpful Tips

- ✓ Do not apply to hot or very cold surfaces.
- ✓ Measure your space before applying.
- ✓ Decals are not reusable once applied. Apply with care and patience.
- ✓ After removing decal from envelope, lay flat and smooth out with a credit or gift card prior to application.

1. Clean surface and allow to dry.
2. Position the 3-layer decal on the item you will apply it to.
3. Secure the decal to the surface by adding two to three strips of masking tape to the edge of the decal.
4. Using the tape strips as a hinge, flip the decal upside down to expose the paper backing.
5. Carefully peel away paper backing from transfer tape and decal. Hold decal away from surface.
6. With an old credit card or gift card, start smoothing decal onto surface from the top down.
7. Gently peel one corner of the transfer tape away from the decal, and pull at an angle.
8. If decal doesn't separate from transfer tape, use card to push back down on surface and try again.
